
Route For Appomattox ACS Bike-A-Thon

Pictured above is a map showing the route to be followed on Sunday, October 29th, when local riders will take part in the Bike-A-Thon for the American Cancer Society, Appomattox County Unit. The route is approximately 10 miles long, beginning at 1:00 p.m., at the junction of Route 627 and Route 631. Two checkpoints will be set up where cards can be stamped and riders will receive refreshments.

Executive Producer Of "Partridge Family" Conceives Bike-A-Thon For ACS

None of the Partridges needs to go into training for the first Partridge Family American Cancer Society Bike-A-Thon on October 28 and 29. The whole family rides expertly. If you visited them on location, you could see everyone from Shirley Jones to little Suzanne Crough riding around on bicycles supplied by the production company.

Inspired, in part, by the sight of the pedaling Partridges, it was Bob Claver, executive producer of the ABC-TV show, who conceived the idea of the first annual Bike-A-Thon. His own daughter had been involved in a similar event for charity in which riders canvassed the neighborhood to get "sponsors" to pledge a certain amount for each mile ridden.

"With a group of friends she rode the entire course on the day of the event; her efforts alone raised almost $300 for the charity," Claver said. "And she and her friends had a feeling of fun and accomplishment So it occurred to me that the Partridge Family should get involved with such a campaign, on a national level, to raise money to combat cancer."

Claver has been active with a local Unit of the American Cancer Society for some time.

"It's something I believe in very strongly. I have lost some close friends and associates to the disease, and I want to do something to help." Both Shirley Jones, who recently made some radio spots for the American Cancer Society, and David Cassidy, who has been involved with its anti-smoking campaign, are enthusiastic supporters of Claver's idea.

So are the rest of the Partridges. Shirley Jones spoke for all of them when she said, "This kind of fund-raising effort really makes sense to me. Actual participation — you don't just ask for money, but in fact have to earn it—gives adults and children a real sense of involvement, a sense of actively taking part in the fight against cancer.

Everyone agreed to devote part of a recent morning work session to making a spot announcement to promote the Bike-A-Thon. At 10 a.m., a large crowd of Boy and Girl Scouts, YMCA members, and other volunteers showed up at the "Partridge Family" shooting. They watched the show being filmed, then took their own turn on camera, riding bikes, with the Partridge Family in the vanguard. The 115 degree heat and a slight pileup of Boy Scouts in a mini traffic jam didn't dampen anyone's enthusiasm.

In fact, all the participants have agreed to ride in the actual Bike-A-Thon on October 28 and 29. The Partridges – with members of the family in various cities – will be riding along with them. And so will Bob Claver.

Change In Studded Tire Dates

Richmond, Va. - Colonel H. W. Burgess, Superintendent of State Police, today called public attention to a 1972 legislative change in the permissive dates for the use of studded tires.

This year, they may not be used until November 1, instead of October 15 as was permitted in the past.

Colonel Burgess said the 1968 General Assembly enacted a law permitting their use until April 15 of that year and from October 15 to April 15 of 1969, on an experimental basis. The 1970 General Assembly extended this law until 1972.

The 1972 General Assembly reset the dates from November 1 to April 1.

Colonel Burgess added that there is much concern among highway engineers as to the damage studded tires might do to road surfaces and that currently the Virginia Department of Highways and the Virginia Highway Research Council are conducting a continuing study as to how the safety factors of studded tires compare with damage potential.
